Lynn's Recipes.com

Lynn demonstrates how to make chocolate stirring spoons perfect to stir your hot chocolate or coffee. A great holiday gift for friends and neighbors.

To make this you will need:

**Ingredients:**

- Plastic spoons
- Chocolate, whatever kind you prefer
- Toppings, such as crushed peppermint, sprinkles, colored sugar, crushed toffee, etc.

Melt your chocolate, either in the microwave or over a double boiler. Dip the spoons in the chocolate and place on a cookie sheet that has been lined with a silicone mat, parchment paper or waxed paper.

Immediately sprinkle on the topping and then refrigerate until the chocolate has hardened.
